Nothing wrong with having "defense mechanisms". In fact they're "essential"; at least useful. ~~The~~ A some crucial factors ~~is~~ are ~~whether~~ ① to what extent you are conscious of the defense mechanism you employ?

② ~~Or~~ to what extent are you using them "consciously

③ Are you conscious of the "side effects" (consequences) of your particular D.M.? you employ

④ How effective are your D.M.s?

⑤ How wide a range of possible D.Ms. did you choose from?

⑥ Are you aware of having chosen your D.Ms?

the purpose of a map is to accurately reflect/describe/etc. the (structure of the) territory.

A Calendar is a map of time

~~Our present~~

A good map should "integrate" us into the "real" Universe.

An inaccurate map can result in unnoticable (?) to death/etc.

Our present calendar severs our connection with the real/physical/etc. Universe

★ start off every "talk" with "the map is not the territory" stuff. - a way to be here
- a place to be from while you're here.

Now I know this doesn't apply to you ~~and~~ ~~but~~ and if you look around you'll see that no one here does this apply to.

Approach this with the same enthusiasm have have for the movies - be willing to "give" yourself to the process.

2478

Why is it that we don't fear giving ourselves to a movie or play. I don't fear loss of ? !

What is it that people fear? Loss of Identity?

where does identity "be"? In the language machine?

Fear results from unstable "Identity Patterning" in L.M.

To a system with minimal integrity, a more highly integrated/energetic/etc system ~~threaten~~ may be viewed/categorized/etc as threatening.

Willing to be vulnerable

It's important that we (as a research group) (here now) (tonite) understand this

If we're going to do any significant work here tonite, then we have to be willing to get out beyond where we know what we're talking about (whatever that means). [Willing to be vulnerable/willing to be wrong.]

I'm going to present some ideas from a mapping you may not be thoroughly familiar with. I don't expect you to "believe" any of it. In fact, if you think you believe it, you have ~~misread~~ a very different understanding of it than me. I would like you to understand it.

Back to asking the question, "Am I present?" Is

How would "I" know?
How would who know?
Everytime I look - I find that I just showed up. to ask the question.

OVER!

It looks like I'm only present a VERY small (one %) of the time, or left.

Now, there are several distributions ways of being "present".

1. Every 100th day - be totally present all day.
2. Every minute show up for a second.
3. [illegible] second " " " 1/100th of a second.

One of the "Side-Effects" of poisoning our environments is that some people get the paper edition of the L.A. Times. ☆

What about the fear (Darwin finally overcame) of the ☆ wrathful reaction of some fundamentalist.

I'm (Dennis) fearful of ~~Fundamentalist Humanists~~

You are a multi-dimensional "entity"

★ ① ~~There is no I~~ You are not a "human being"
② There is no corresponding territory for the map called I
(The way you and I use the sound "AY" is stupid actually it's the L.M.)
③ The word "reality"/"real world"/etc. is totally stupid.
★ ④ Being conscious at the 1/10th second level and/or be conscious of/responsible for the consequences of not being conscious at that level.
You are already ~~enlightened~~ as conscious as you're ever gonna get!!

THIS IS NOT A WORKSHOP

4491

★ (5) 2 Domains (Reality is not as simple as we were lead to believe it is or should be.)

(6) There is only one "entity"/being/etc. [GOD] (NO ~~closed~~ systems)

(7) All distinctions exist is the Domain of Magic/Creation — outside our closed system

(8) If you don't have a written purpose in life, you don't have one (a purpose in life).

★ (9.) Nobody home most of the time. Just ~~dd~~ a L.M.

★ (10) And also, let's use the right word - "revolution" (a fundamental break with some aspects of the old order) The American Revolution — Phase 2

Being 'seduced' by the ? Earth Level. (physical?) is only "bad" if it leads to rejecting other levels. That doesn't necessarily follow. Earth is a beautiful, seductive "reality". So be it.

(11) And a new calendar, too!

(12) Oh, and also, You don't know how to think either You're not only unconscious — you're stupid too. But you are sorta cute.

(13) One World Management System (notice I did not say "Government") THE UNITED PEOPLE OF EARTH

(14) How about "Reality as a Game" called EARTHNET

(15) A New Elite!? ? (those who make a difference) Master of the Rulan Greedo

★ (16) We have no more intelligence/integrity (consciousness)/love/etc. than our comrades demand of us. You can't grow by yourself

(17) Apes :: Sapes :: ~~beings~~ THE ENTITY

(18) The Shop-keeper analogy

(19) Everything is GOD IN ACTION (see 2503)

★ (20) TEAMWORK — the crow or mouse Arturo Channig

★ (21) Paradise - the end of progress

(22) Beyond Sex

a) Marriage (old style) is no longer functional for almost everyone — it's right for 2% (maybe). Most of you who think you're looking for your "soulmate" and think that will make you happy are WRONG. (will be disappointed)
